Co-funded by  
the European Union

This project has received funding from the European Union's Digital Programme under Grant Agreement No. 101128028

# What is SOC4SME?

## SOC4SME: Empowering SMEs for a Safer Digital Future

- Delivers cutting-edge cybersecurity solutions tailored to the needs of Greek SMEs
- Strengthens digital defenses with real-time monitoring, AI-driven threat detection, and agile incident response
- Provides peace of mind so SMEs can focus on growth and innovation
- Bridges the gap between SMEs and the national cybersecurity ecosystem
- Empowers SMEs to make their leap towards resilience, compliance, and success in the digital era

# SOC4SME in a nutshell

## € 12 million

funneling developments focusing on SMEs cybersecurity.

## 5 Partners

with extensive experience on Cyber Security solutions.

## 120 SMEs

will test and evaluate SOC4SME services in real world scenarios

## 36 Months

of cybersecurity developments and progress.

# Who We Are

- A team of cybersecurity experts dedicated to Greek SMEs
- Operates under the aegis of the Ministry of Digital Governance and the Greek National Cyber Security Authority
- EU-funded initiative bringing AI/ML-powered tools for real-time monitoring, threat detection, prediction, and response
- Focused on empowering SMEs to safeguard their systems and networks

# Our Objectives

---

Establish a sectoral Security Operations Center (SOC) for SMEs

---

Analyze and share cybersecurity data effectively

---

Leverage ML/AI for attack detection and prediction

Facilitate information flow and connection with authorities

---

Ensure SOC4SME's long-term impact and sustainability

---

Provide reporting tools to SMEs

# Our Services for SMEs

## Real-time Monitoring

Continuous surveillance to detect and neutralize threats as they happen.

## Prediction & Recommendations

Leverage AI-driven insights to anticipate future threats and strengthen your cyber defenses.

## Timely Threat Detection

AI/ML-powered systems analyze network activity to identify suspicious behavior before an attack occurs.

## Agile Incident Response

When an attack happens, our rapid-response system ensures minimal damage and quick recovery.

# Why Participate?

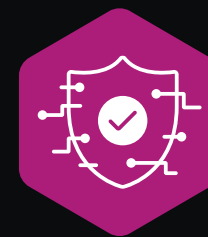

Stronger Cyber Defenses,  
Less Risk

Grow with a Cybersecurity  
Community

Designed for SMEs, Built  
for Simplicity

Stronger Security, Better  
Insurance Benefits

Exclusive Tools & Expert  
Support

Stay Ahead with Proactive  
Risk Mitigation

# THANK YOU
